Jorge Ferreiro

Entrepreneur, Software Engineer, Blog Writer and Speaker - Mail: Jorge@ferreiro.me

WORK EXPERIENCE

Frontend Software Engineer (R&D), Eventbrite, Madrid — Sep 2018 - Current
- Created and launched a new product from scratch inside Eventbrite.
- Improved and reduced by 40% the website layouts definition that is generated with JSON, and created the first customizable themes from scratch.
- Building customer-facing features, coordinating work with business and design.

Backend Software Engineer Intern, Amazon, Luxembourg — Jan 2018 - Jul 2018
- Added **new functionality to a distributed system** using Amazon cloud technologies (DynamoDB, SQS, Redshift), applying software best practices to rollout features safely in critical live systems.
- Created **3 Hackathon projects,** including a **React.JS frontend** to visualize in real time Amazon DynamoDB production tables, and submitted 2 patent requests to Amazon intellectual property.
- Led the collection of requirements and **facilitated the communication with an external backend team and project managers** agreeing to standardized formats for interface between systems.

Full-Stack Software Engineer and Founder, Dailyfocus, Madrid — May 2016 - Dec 2017
- Created a modular **User Interface and wrote reusable components,** implemented and deployed the **Backend and Rest API** using Model View Controller (MVC) architecture, creating an extensible modular architecture with its own plug-ins marketplace.
- **Designed a polished responsive UI,** conducted user interviews to define requirements from business executives and delivered an effective product roadmap.

Full-Stack Software Engineer and Founder, Music4Deejays, Madrid — Dec 2013 - Dec 2015
- **Achieved 56k downloads by creating a strategy** to drive the product to massive reach.
- Built an streaming music player using Soundcloud API.

PROJECTS

Developers In Depth Youtube Show — Summer 2019
- Creating and pre-producing a new Youtube Show of interviews to Senior Software Engineers.
- The goal is to demystify the world of Programming and inspire the young generation of engineers.

Advisor to Silicon Valley Startup — Jan 2019 - current
- Bringing technical Bootcamps (coding/web development) to developing countries.
- I'm the strategic mind behind the creation of the Bootcamps.

International Speaker and blog writer — 2015 - current
- Giving motivational and technical talks to a broad and diverse audience. Some of my conferences were featured Trending Topic on Twitter. More than 30 positive testimonials.
